3) Peter Schuster (Victor Francis Hess’ Research and Heritage Center, Austria), peterschuster@eircom.net
4) Kostas Tampakis (Institute for Historical Research / National Hellenic Research Foundation, Greece), konstantinos.tampakis@gmail.com

Abstract: This is the first symposium organized by the recently established Commission on Science and Literature. Its theme is the relationship between Science and Literature through different perspectives. Following the general theme of the Conference we shall attempt to examine local case studies for the interaction between science and Literature as well as their connection in a global scale.

As it is known there are several opinion concerning the connection between Science and Literature, some of them quite contradictory to each other.

The participants share more or less the view that actually Science and Literature have much in common and both may gain a lot from their mutual influence.

The symposium aims to examine the role of science in poetry and fiction as well as in other forms of Literature in different periods.

The presentations will be published after review in a thematic volume.

Keywords: Science and Literature – One culture – Medicine and Literature – Science fiction.
